

JCdesign

My website will be a place for me to display my artwork. There will be a page for my illustrations, my main focus of design, a page that will feature my 3D artwork, and a place that will feature my composite artwork. My audience would be both people who may be interested in my art and people who may be interested in hiring me as a designer.

3D Artwork

I am a New York based artist with a focus on design and illustration. I do my artwork by hand and digitally. I get my inspiration from cartoons, horror movies, skateboarding and music, namely punk rock and hip hop.
